

VIMAN MULTIPLUG PVT. LTD.

Environmental, Occupational Health and Safety Policy

Viman Multiplug Pvt. Ltd. is committed to continually improve the overall performance, efficiency and effectiveness of our EHS management system by integrating and communicating the EHS criteria at all levels of our activities and relevant interested parties involved in the manufacture of sheet metal enclosures for Electrical, Electronics, Engineering, Solar Power Equipment and Telecommunications Industries with an aim to -

- Set benchmarks in services while adhering to all applicable statutory, regulatory and other requirements by setting measurable objectives and targets.
- Eliminate, reduce and control significant environmental aspects and occupational health & safety hazards, arising out of our activities and prevent pollution, injury & ill health.
- Promote waste and safety management techniques, through documented, implemented and maintained policy, which is reviewed periodically, for its continuing suitability and to protect people and environment, by regular monitoring, reviewing and updating the system.
